

Norfolk Sportshall League

County Squad Selection

The majority of the Squads will be selected on the performances and commitment from the league meetings, however, the Committee will recognise exceptional performances at the County Championships for possible inclusion. Selection will be based on participation in at least one League event or the County Championships.

Should the regional championships be very early in the season then the league meetings will be used to select the team, however, the Committee will recognise exceptional performances at the County Championships for possible inclusion.

Final selections will be made by the Committee and their decision will be final.

Athletes that are selected for their county teams are expected to make every effort to attend the County Training sessions to ensure that the teams are suitably ready and prepared.

TEAM MANAGERS

Regional and National Team managers will present their selected team to the Committee for approval. Team Managers must arrange Parent help on the day to assist judging.

The Rules for Regional Competition are arranged by UK Sportshall and are available from UK Sportshall or on request from a member of the Committee.
